Description: This course helps participants establish the essential core competencies required for performing the duties of the Situation Unit Leader (SITL) in an all-hazards incident. This course addresses all responsibilities appropriate to a SITL operating in a local or state level All-Hazards Incident Management Team (AHIMT). These responsibilities include processing information and intelligence and developing displays. The course is an instructor-led training that supports learning through discussion, lecture, and active participation in multiple exercises. By requiring participants to bring a SITL Kit to the instruction, the course provides a realistic, hands-on approach to mastering the skills of a SITL.

Prerequisites: Students must have completed ICS 100, 200, 300 and 700. ICS 400 & FEMA IS 800b are optional, but highly recommended. Prerequisite certificates must accompany application.

Registration: Submit a FEMA training application 119-25-1 (formerly 75-5) form along with prerequisite certificates to your State Training Officer (STO). Your STO will forward applications to the Indiana Department of Homeland Security.

Lodging: Lodging may be reimbursed by FEMA for those students who qualify. Travel stipend information will be included in enrollment confirmation letter.
